

Digital Forensic Investigation Report

Generated by Digital Evidence Analyzer

Report generated on: 2026-09-26 23:58:07

Report ID: 3cdc54a7

1. File Identification

Original Filename	clean_test.png
Stored As	3d1a0545-414b-4c6f-8f08-936e9d599736.png
File Size	126,135 bytes
Detected True Type	image/png

2. File Integrity (Cryptographic Hashes)

MD5	c81e010228ef434de487932eafe57c87
SHA256	83b7c1ab9a53c3c6194ca55f518b73817910d4cf5e172eea741a8e895da01bff

3. Metadata Analysis

No EXIF metadata found in this image.

4. Steganography Analysis

Verdict: No strong indication of LSB steganography.

LSB Zero-bits	60,235
LSB One-bits	59,765
Chi-square Value	1.8408
Detection Threshold	10.83

File is larger than its expected uncompressed size - this can (but does not always) indicate extra hidden data appended to the file.

This report was generated automatically by the Digital Evidence Analyzer for educational and preliminary investigative purposes. Findings should be verified with professional forensic tools before use in legal proceedings.
